MEMORANDUM OF TELEPHONE CALL

[Ref. EDIC Case 13]

EDIC /Am - 14]

DATE: 18 October 1955
TIME: 11:15 hours

25X1A9a

25X1A9a [REDACTED] called Col. Robert Green, USAF, in OSD to inquire whether Col. Green would be willing to make a preliminary statement on what the EDIC Ad Hoc Working Group on Magnesium should prepare in the way of a report. [REDACTED] pointed out to Col. Green that he had been told by Mr. George, BPG, and Mr. Stull, BPG, that the original plan to convene a Commerce Technical Task Group on magnesium/phosphorus and that therefore had been

the EDIC Ad Hoc Working Group need not wait for such a group to conclude first the technical portion of the magnesium inquiry. Col. Green replied that at this very moment he had with him a Mr. Rauch Meyer, Deputy Director, Materials Division, BPG, who was there to discuss the question of whether Defense would agree to activating a BPG Technical Task Group on Magnesium after all. Col. Green promised to call [REDACTED] 25X1A9a as soon as he and Mr. Meyer had reached a decision. It was agreed that as soon as Col. Green called [REDACTED] the first meeting of 25X1A9a the EDIC Ad Hoc Task Group would be definitely scheduled and Col. Green agreed in principle that the first meeting he would make a statement on

st

why Defense had raised the matter in JDC as a corollary to the Borax problem, what questions Defense might have put before a BPG Technical Task Group and to what specific intelligence questions the EDIC should address itself.
